### **Agency of Transportation Announces Vermont Better Roads Grant Program**

Barre, Vt. — The Vermont Agency of Transportation (AOT) is pleased to announce the 26th year of funding to support projects on municipal roads that improve water quality and result in maintenance cost savings. The grant funds are provided by AOT in partnership with the Vermont Agency of Natural Resources. The Vermont Better Roads Program promotes the use of erosion control and maintenance techniques that save money while protecting and enhancing water quality around the State.

The application scoring of the Better Roads Program is intended to be in line with the State's Clean Water Act (Act 64) and the Municipal Roads General Permit (MRGP). In an effort to prioritize funding for projects that are providing significant water quality improvements, applicants must indicate whether or not the projects that they intend to construct will be in full compliance with the MRGP.

**Applications for funding will be accepted until December 16, 2022.** For the most up-to-date information or to download a copy of the application, please visit our website at <http://vtrans.vermont.gov/highway/better-roads>.

If potential applicants have questions, they may contact the Better Roads staff:
